FOR IMMEDIATE RELEASE

**WELCOMING TALENT TO THE SHOW AND SHOWING OFF OUR TALENTS**

**Baltimore, MD, March 25, 2009** – KANN Partners is thrilled to welcome a returning voice to its professional team. Shaw Rahman, AIA, NCARB, LEED AP, received his masters in architecture in 1991 from the University of Oregon. As an associate and project manager for KANN Partners, Rahman offers specialized architectural expertise in designing renovation, expansion, and new construction for retail projects throughout the mid-Atlantic region.

KANN Partners would also like to congratulate staff members Eduardo Sanchez and Adam Searcy for recently passing the LEED (Leadership in Energy and Environmental Design) exam and becoming LEED Accredited Professionals. KANN Partners has always advocated adaptive re-use as an alternative to new construction, so the strong focus on sustainable design is innate to our firm's culture. Counting Sanchez and Searcy, more than 20% of the KANN Partners staff are now LEED accredited professionals.

Great architecture is a team effort. KANN Partners focuses on developing partnerships within the firm and with our clients and colleagues. To learn more about KANN Partners, visit [www.kannpartners.com](http://www.kannpartners.com).
